

Spotlight On Safety

Introducing, the new J.W. Speaker Spotlight.

Many times, small investments in safety technology can make a BIG difference in the effectiveness of your overall safety awareness plan and policies.

Model 770 BLU
Part Number: A000037093

Model 770 RED
Part Number: A000041571

This spotlight mounts to any forklift and projects a bright blue or red light to serve as a visual alert of oncoming forklift traffic.

- Projects blue or red LED light on the floor 10-15 feet behind the moving forklift
- Ideal for loud, busy work environments
- Helps increase awareness of forklift traffic

Product Features and Benefits

- Impact- and corrosion-resistant polycarbonate lens and housing
- Extremely low current draw
- Universal mounting brackets
- 12-48 VDC multi-voltage configuration
- Resistant to shock and vibration
- Sealed to keep out dust and water
- Low profile allows for easy mounting

An Ounce of Prevention

Did you know that over 94,000 workplace injuries related to forklift accidents are reported every year? And that almost 80% of those accidents involve a pedestrian, according to the Bureau of Labor Statistics and OSHA?

Effective workplace safety is not an expense; it's an asset. Help protect your employees and your bottom line with the simple and effective spotlight recommended and installed by your authorized Promatch® dealer.
